

SHAPING SUCCESS, INSPIRING IMPACT.

For collegiate administrators at the school or conference level,

Student-Athlete Voice is an online survey tool specifically crafted to evaluate the student-athlete experience, offering valuable insights that can guide decisions supporting student-athlete success and well-being, team and program performance, and overall campus impact.

EXPERT-LED

Developed by expert researchers with a combined 50+ years of experience managing research studies for collegiate athletics.

- Designed with a deep understanding of student-athlete and institutional data needs.
- Backed by Prevention Strategies and UNCG Center for Athlete Well-being.

EASY TO IMPLEMENT

Easy to implement at the school or conference level:

- Complete survey in 7-10 minutes on any web-enabled device.
- Prevention Strategies manages recruiting, implementation, analysis and insights, benchmarking and recommendations.
- Customize a turnkey survey to your needs: up to 10 custom questions.
- Qualifies for NCAA Division III Diversity Grant funding.

ACTIONABLE

Practical, actionable data and insights on current and continuing student-athletes.

- You get back your anonymous, aggregated data back.
- Your Student-Athlete digital data dashboard allows you to view and filter data, get sport-specific analyses, benchmark within a conference and more.

HOW IT WORKS

- We meet to understand your needs and recommend an implementation plan for your institution or conference.
- Students complete a 7-10 minute web-based survey focused on topics related to belonging, academics, and athletics.
- We analyze the results, including sport-specific analyses and benchmarking within a conference.
- We provide your results, recommendations and digital dashboard — and are available for in-person or virtual meetings with key stakeholders to help you understand your data and its implications.

GET STARTED

You **can** make data-driven decisions that shape student-athlete success and well-being, program and team performance and support the general student community.

Let us help you get started.
